Diagnostic catheterization is the essential prerequisite to decision making for patients being considered for a host of new interventional cardiac, coronary, and peripheral vascular technologies. 

- Does a patient merit heart valve replacement (percutaneous or surgical)?
- What are the best views to recognize renal artery stenosis?
- Can we perform drive-by carotid angiography safely?
- How do we avoid missing critical coronary lesions?
- Do the odd hemodynamics being printed out by the computer actually make sense?

This is the third interactive symposium in diagnostic cardiac and peripheral catheterization. A unique format will feature talks by a distinguished faculty and multiple self-assessment audience response system quizzes and practical examples.

The course is designed to bring cardiologists up to date on peripheral vascular angiography, adjunctive pharmacotherapy, the proliferation of contrast agents, vascular closure devices, handling of complications, and a review of other important issues and techniques. It is also intended to provide in-depth teaching of subtleties of hemodynamics and other areas of cardiology and peripheral vascular disease that are not always covered in teaching programs.

Intended Audience:
The intended audience for this conference includes invasive cardiologists, cardiology fellows, catheterization nurses, technologists, physician assistants, and nurse practitioners. It is the only course in the United States focused on teaching subtleties of diagnostic catheterization.

Overall Objective:
The attendee will be exposed to a wide range of topics dealing with diagnostic cardiac and peripheral catheterization, including:

- Diagnostic angiography in the interventional era
- Hemodynamic assessment and complex decision making
- New contrast agents
- Adjunctive pharmacotherapy
- Complications and their management
- Evidence-based approach to vascular access and closure
- Peripheral angiography for cardiac catheterizers
- Structural heart disease and coronary anomalies

The objectives are to learn or relearn subtleties of hemodynamics and angiography, understand the role of new modalities available to catheterization labs, and see a wide range of examples of good and bad catheterization lab procedures, their consequences and how to avoid and manage complications.

Accreditation/Designation/Disclosure:
The Cooper Health System is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Cooper Health System takes responsibility for the content, quality, and scientific integrity of this CME activity.

The Cooper Health System designates this educational activity for a maximum of 16 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity. Certificates of Attendance will be issued to participants.

Sixteen Category 1 Credits are equal to 19.2 contact hours (NJSNA).

All faculty participating in continuing medical education activities sponsored by The Cooper Health System are expected to disclose to the audience any real or apparent conflict of interest related to the content of their presentation.

Faculty

Visiting Faculty:
Blase A. Cassileth, M.D.
Professor of Medicine
Rutgers University School of Medicine
Vice Chairman, Department
Cardiology
Bellatory Veterans Affairs
Medical Center
Houston, TX

John W. Hriljac, M.D.
Professor of Medicine
University of Pennsylvania School of Medicine
Director, International Fellowship Program
Children's Hospital of Philadelphia
Philadelphia, PA

Michael Landzberg, M.D.
Assistant Professor of Medicine
University of Pennsylvania School of Medicine
Director, Interventional Radiology
Children's Hospital of Philadelphia
Philadelphia, PA

Roxana Mehran, M.D.
Assistant Professor of Medicine
Columbia University College of Physicians and Surgeons
Center for Interventional Vascular Therapy
New York, NY

David M. Reich, M.D.
Consultant, Cardiology
Boston, MA

John S. Ryan, M.D.
Cardiologist/Scientist
San Diego, CA

Morten J. Kern, M.D.
Professor of Medicine
University of Pennsylvania School of Medicine
Director, Cardiovascular Interventions
Evanston, IL

Gregory L. Yock, M.D.
Professor of Medicine
University of Pennsylvania School of Medicine
Director, Interventional Cardiology
Evanston, IL

John T.旗下, M.D.
Professor of Medicine
University of Pennsylvania School of Medicine
Director, Interventional Radiology
Children's Hospital of Philadelphia
Philadelphia, PA

Conference Location:
The Cardiac Cath Handbook Live: Invasive Cardiac and Peripheral Diagnosis III
September 29 & 30, 2006
Park Hyatt Philadelphia at the Bellevue 1 Waverly Street Philadelphia, PA Phone: (215) 693-1234
Fax: (215) 693-1226
E-mail: diana@amyrose@aol.com

Hotel Reservations:
Reservations must be made through the Hyatt's central reservation department (800-233-1234 or 215-693-7473). Please mention this conference number to receive the discounted rates. Reservations deadline is September 20, 2006. No refunds will be granted for cancellations received after this date.

Cancellations Policy:
The Cooper Health System reserves the right to cancel this conference due to unforeseen circumstances.

Refund Policy: Your conference registration will be refunded (less a $50.00 processing charge) if we receive written notice of your cancellation no later than September 15, 2006. No refunds will be granted for cancellations received after this date.
