

Verifications of Residency and Fellowship Training Requests

Cooper University Hospital (CUH) verifies training program dates and malpractice claims history on current and former resident and fellowship trainees in our database.

- All residency and fellowship verification requests **must** be in writing and include a signed release.
- For verification requests *within* the past 10 years - please send requests directly to individual program. Questions regarding clinical performance/privileges during training are completed at the discretion of the current Program Director.

Program Contacts can be accessed in the Residencies or Fellowships links:

<https://www.cooperhealth.edu/>

- For verification requests *more than* 10 years old - please fax requests directly to the Graduate Medical Education (GME) office. The GME office can only verify dates of training on a CUH standard form letter. Requestor forms will not be completed.
