Description:

The AHA's Family & Friends CPR Course has been updated to reflect new science in the *2015 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care*.

This video-based classroom course teaches adult Hands-Only™ CPR, adult AED use, child CPR and AED use, and infant CPR. It also teaches how to relieve choking in an adult, child or infant.

Skills are taught using the AHA's research-proven Practice-While-Watching technique, which allows participants to practice skills while watching consistent, accurate modeling of skills performance on the course video. Adult, child, and infant skills are presented in three separate modules for added flexibility.

Intended Audience:

The Family & Friends CPR Course is for members of the general public who want to learn CPR and prefer to learn in an Instructor-led or facilitated group environment. This course is for people who do not need a course completion card for a job or other requirements.
