Course Description:

The BLS Course has been updated to reflect new science in the *2015 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care*.

This video-based, Instructor-led course teaches both single-rescuer and team basic life support skills for application in both in- and out-of-hospital settings. This course trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations, and provide early use of an AED. It includes adult, child, and infant rescue techniques.

Intended Audience:

This course is designed for healthcare professionals and other personnel who need to know how to perform CPR and other basic cardiovascular life support skills in a wide variety of in- and out- of hospital settings.

Course Materials:

We will confirm your registration by email. Pre-course Information will be emailed to you upon receipt of your completed online registration. **If you do not receive an email within 2 business days after submitting your online registration request, please contact the Life Support office at (856) 342-2009.**

COURSE REGISTRATION IS NOT CONFIRMED UNTIL YOU HAVE RECEIVED THE CONFIRMATION EMAIL WITH PRECOURSE INFORMATION.

It is suggested that all participants read the 2016 BLS Provider Manual prior to coming to the course. The manual is available for purchase from the LSTC for \$15.00. (The BLS manual is included for paying participants).

The Life Support Training Center reserves the right to deny course registration requests if all required information is not provided.
