Camden, New Jersey 08103

*The **Emergency Nurses Association** is
accredited as a provider of continuing
nursing education by the American
Nurses Credentialing Center's
Commission on Accreditation*

COURSE DESCRIPTION

The Emergency Nurses Association (ENA) Trauma Nursing Core Course (TNCC) is a 17 hour course designed to provide core-level trauma knowledge and psychomotor skills associated with the delivery of professional nursing care to the trauma patient. The information is presented through lectures and psychomotor skill stations. The TNCC has been designed by nurses for any nurse who provides care to trauma patients. It is intended to enhance cognitive skills, to sharpen technical skills, and to provide a foundation for future learning. The ultimate purpose is to improve the level of care provided in emergency care settings, large and small, rural and urban. ENA has recommended TNCC as the minimal required education for emergency nurses who care for trauma patients.

DAY ONE:

Morning lectures will include: Teamwork & Trauma Care, Initial Assessment, Airway & Ventilation, Shock, Brain, Craniofacial & Maxillofacial Trauma, Ocular, Thoracic & Neck Trauma, Abdominal & Pelvic Trauma, and Spinal Cord & Vertebral Column Trauma.

The afternoon will focus on Psychomotor Skill Teaching Stations including: Trauma Nursing Process, Airway & Ventilation, and also the Trauma Interventions Skill Station.

DAY TWO:

Morning lectures will include: Musculoskeletal Trauma, Pain, Surface & Burn Trauma, Special Populations: Pediatric Trauma, Disaster Management, Psychosocial Aspects of Trauma Care, and Transition of Care for the Trauma Patient and Post-resuscitation Care.

Afternoon sessions will consist of written and practical evaluations.

COURSE COMPLETION

To successfully complete the course, the participant must attend all sessions, must score 80% or better on the multiple choice written exam, and pass the Trauma Nursing Process evaluation skill station. It is suggested that all participants read the complete TNCC Provider Course manual, 7th edition, that will be sent to participants prior to the course. There are four lectures (Bariatric Trauma, Interpersonal Violence, Older Adult Trauma, Pregnant Trauma Patient, and Biomechanics, Kinematics, and Mechanisms of Injury) that are presented in a webinar format, which the learner is expected to watch and complete before coming to the live class. Participants will be awarded CEs for these lectures after watching and completing them online, and they will also receive separate CEs for their attendance in the live course. A card verifying the successful completion of the TNCC Provider Course will be issued to the RN along with a certificate for 17.65 contact hours. Verification remains current for four years.

COURSE SCHEDULE

Lectures will start each day promptly at 8:00 am. Each day will end at approximately 5:30 p.m. Lunch is on your own.

FEE:

ENA Members: \$350.00

Non-ENA Members: \$375.00

REFUND POLICY

Cancellations received at least four weeks (28 days) prior to the date of the course will receive a refund of monies paid minus the fee of the course manual. No refunds or transferring to another course for canceling within four weeks (28 days) of the course date.
