Course Description:

The AHA's ACLS Course has been updated to reflect new science in the 2015 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care. This advanced course highlights the importance of team dynamics and communication, systems of care and immediate post-cardiac arrest care where case-based scenarios are presented. ACLS also covers airway management and related pharmacology.

For successful course completion, students must demonstrate skills competency in all learning stations, pass the CPR AED skills test, bagmask ventilation skills test and the Megacode test. They also must pass the written test with a score of 84% or higher. Upon successful completion, students receive an ACLS course completion card, valid for two years.
